

REPRODUCTION OF COPYRIGHTED MATERIALS

It is the intent of the Board to delineate, enforce and abide by the provisions of current copyright laws as they affect the school district and its employees.

Copyrighted materials, whether they are print or non-print, will not be duplicated unless such reproduction meets "fair use" standards, or unless written permission from the copyright holder has been received.

Details about "fair use" will be made available to all teachers. A summary of these standards will be posted or otherwise made easily available at each machine used for making copies.

The Board does not sanction illegal duplication in any form. Employees who willfully disregard the district's copyright position are in violation of Board policy; they do so at their own risk and assume all liability responsibility.

All persons are prohibited from using district technology in violation of any law including copyright law. Only appropriately licensed programs or software may be used with district technology. Further, no person will use the district's technology to post, publicize, or duplicate information in violation of copyright law.
